## The Food of the Gods

Nature rebels against mankind in an update of H. G. Wells' classic tale of ecology gone berserk. Strange food oozing from the soil turns rats, worms and wasps into monsters. Marjoe Gortner is a football hero who tackles the problem, aided by beautiful biologist Pamela Franklin. Scary food for thought. *Violence, mild language*. (PG-1:28) June 24, 27, 30

## The Town That Dreaded Sundown

A hooded madman stalks lovers' lanes of a Southwestern town, shattering the joy over the town's post-WW II boom.

The menace strikes again amidst mounting terror in this reenactment of an actual case that horrified the nation. Ben Johnson is a Texas Ranger called in to aid local police. *Violence, profanity.* (R-1:30) June 30

## How HBO Works

An HBO Holiday Weekend Premiere!

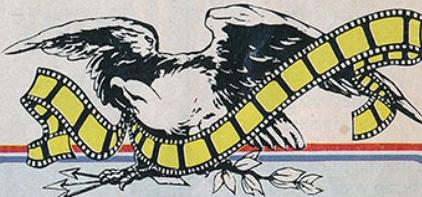

How programs are scheduled is something we try to explain frequently in order to help you get maximum enjoyment out of your Home Box Office subscription. Movies and specials premiere on weekends

—Friday, Saturday and Sunday. For viewing convenience, they are then shown again at different times on four or five occasions during the next four weeks. When shows premiere in the latter part of the month, their opening runs are carried over into the early part of the next month. In addition, we encore several of the most popular movies or specials from previous months. The schedule, which is divided into two segments—weekends and weekdays—includes page numbers. These refer to the location in the guide where you can find out more about the programs.

Home Box Office reserves the right to make a schedule change or program substitution without notice.

HBO welcomes letters from subscribers. Please address all mail to: Susan Devon, HBO Customer Relations Manager, Time & Life Building, Rockefeller Center, New York, N.Y. 10020
